

## Andrea Di Lena

Andrea is a Chartered Engineer with 15 years' experience in the energy sector. He has an MBA from London Business School and an MSc in Chemical Engineering from the University Federico II of Naples, Italy. He joined MatthewsDaniel in 2019, handling property damage, business interruption, and third-party liability aspects of complex and major claims. As Chief Innovation and Strategy Officer, he drives innovation and digital transformation for MatthewsDaniel.

Andrea was previously a Senior Consultant at Bechtel and KBC, where he advised global companies on plant design, asset optimisation, operations improvement, and project management. As a Lead Process Engineer at Bechtel and Saipem, Andrea managed the engineering design of multi-billion dollar EPC projects in the Middle East, Europe, Asia, and Africa. His energy expertise includes linear programming (PIMS), techno-economic modelling, and process simulation. Beyond energy and insurance, Andrea has a keen interest in emerging technologies, data analytics, and cybersecurity.

## Hugh Kennaway

Hugh Kennaway leads MatthewsDaniel's global non-marine adjusting and risk assessment team. He is a Chartered Insurer and Fellow of the Chartered Institute of Loss Adjusters, with over 28 years' adjusting experience, principally in the London market, Middle East, North and West Africa, Europe, CIS Countries and the Russian Federation. During his career, Hugh has handled many high-profile claims on operational and construction policies, with a particular focus on the power, downstream oil and gas and petrochemical industry sectors, covering both property damage and consequential loss aspects.
