

Bio – Chris Stephen

Chris Stephen is a Data and Risk Analyst within the Natural Resources team at Inigo. As a Chartered Engineer, Chris holds a degree and PhD in Chemical Engineering and has nearly 25 years' experience as an Onshore Energy Risk Engineer across the London and Dubai insurance markets. Before moving into insurance, Chris worked for UOP in start-up and commissioning within the oil refining sector. Over the last 10 years, at both Liberty and more recently Inigo, Chris has focused on the analysis and causation of losses in the Onshore Energy sector. Since joining Inigo in 2024, Chris has continued his role as a Risk Engineer while placing greater emphasis on data and analytics, including the development and build-out of Inigo's Onshore Energy Loss Database, which provides insights and trend analysis for clients and underwriters.

Bio – John Attridge

John Attridge is Fellow of the Institution of Chemical Engineers who works as a Risk Engineer in the Onshore Energy team at Liberty Specialty Markets in London, where he has been supporting the Oil, Gas, Petrochemical & Chemical Operational and Construction teams for over twenty years. During that time he has worked closely with the Claims Department on the technical aspects of losses. He is currently the Chair of the LMA Onshore Energy Business Panel Engineering Sub-Group.

Prior to moving into insurance John worked as a process engineer at Foster Wheeler where he was responsible for leading teams of chemical engineers during the execution of the conceptual design, process design and process engineering for projects, particularly for plants based on the bp polyethylene, ICI purified terephthalic acid and Bayer polycarbonate technologies. He also worked on site on the commissioning and performance testing of these plants.
